

ACTIVATED CHARCOAL SKIN SCRUB

With the help of charcoal powder, manual exfoliants and a trio of revitalizing acids, this powerful scrub dissolves dead skin to help keep pores clear. It removes dirt and excess oil that can lead to clogged pores, ingrown hairs and breakouts, revealing skin that looks more radiant and even-toned. As dull skin lifts away, the skin appears refreshed and smooth and is prepared for application of serums and other treatments.

why it's different

Exfoliating Acid Blend

A blend of alpha and beta hydroxy acids includes lactic, salicylic and mandelic acids that combine to offer powerful exfoliation.

Purifying Benefits

Charcoal helps to draw impurities, oil and grime from pores, leaving the skin with a refined appearance.

Unrivaled Efficacy

This formula utilizes each ingredient in its most effective form, selected specifically for its ability to deliver real results.

key benefits

- Absorbs dirt, excess oil and impurities
- Dissolves dead skin buildup
- Helps to defend against ingrown hairs
- Manually removes dead skin from the surface
- Leaves skin clean and refreshed with a soft, smooth appearance

skin concerns

- All skin types

Suited For All Skin Types.

how it works

Activated Skin Scrub utilizes manual and chemical exfoliants, along with the power of bamboo charcoal powder, to slough away dead skin. Charcoal acts as a magnet that absorbs impurities from pores, helping to alleviate congestion. Salicylic acid, a known acne-fighting ingredient, exfoliates dead skin buildup and removes dry, flaky skin. It combines with lactic acid, a derivative of fermented milk that aids in rejuvenating the skin and reducing the appearance of enlarged pores. Similarly, mandelic acid encourages the shedding of dull skin and improves the appearance of fine lines. Botanical jojoba beads provide gentle yet effective exfoliation.

key ingredients

Charcoal Powder

Charcoal powder is a powerful extracting ingredient derived from bamboo plants. Its effective absorption capabilities make it ideal for purifying oily or problem skin. It pulls dirt, oil and impurities from pores, giving them a tightened appearance.

Salicylic Acid

Ideal for dry, damaged skin, salicylic acid exfoliates the skin's upper layer. It is also an acne-fighting ingredient that helps to calm irritated skin.

Lactic Acid

Lactic acid is a naturally occurring alpha hydroxy acid obtained through milk fermentation. It helps to slough away dead skin buildup that can clog pores and dull the complexion.

Mandelic Acid

This alpha hydroxy acid encourages the shedding of dead skin. It helps to improve the appearance of fine lines, wrinkles and discoloration.

Jojoba Esters (Jojoba Beads)

Botanical, biodegradable jojoba spheres smooth away dull, dead skin.

directions for use

Apply to clean, wet skin 1 - 3 times per week. Gently massage scrub in a circular motion, avoiding the eye area. Rinse thoroughly with warm water. May be used prior to shaving to promote a smooth, close shave. Recommended for use on all skin types.
