

CUCUMBER EYE CREAM

Cool and comforting, this 3-in-1 product addresses dark circles, fine lines, and puffiness around the delicate eye area. In addition to cucumber extract, this formula contains vitamins A and E to deeply hydrate and provide antioxidant support. Peptides, collagen, squalane, and hyaluronic acid create a multi-faceted system that hydrates and improves the appearance of fine lines.

why it's different

Mega Moisture

The skin under the eyes is extremely thin, making it more susceptible to moisture loss, which can exaggerate imperfections. Squalane and hyaluronic acid create layers of hydration to ensure that skin maintains its moisture balance. As hyaluronic acid works to pull moisture from the environment to the skin, squalane ensures that the hydration stays within the skin longer by minimizing transepidermal water loss, resulting in the delicate skin around the eyes looking more refreshed and revitalized.

Triple Threat

Cucumber Eye Cream features the latest developments in skincare technology coupled with targeted botanicals to address three major eye area complaints. The appearance of fine lines is improved by a blend of anti-wrinkle peptides and vitamin A, while under eyes are soothed and de-puffed by cucumber extract.

key benefits

- Depuffs and refreshes the appearance of tired eyes
- Visibly firms and improves the appearance of crow's-feet, lines and wrinkles.
- Brightens the look of dark circles
- Hydrates the delicate eye area

skin concerns

- Dark circles
- Puffiness
- Fine lines & wrinkles

Suited For All Skin Types.

how it works

When collagen fibers deteriorate, peptides can help signal the skin to jumpstart collagen production. Certain peptides like hexapeptide-8 work differently. In the skin, they help to fight contractions that cause wrinkles to form in the first place. This wrinkle-fighting action smoothes the skin's appearance, minimizing the look of crow's-feet and fine lines around the eyes.

key ingredients

Squalane

Derived from olives, squalane works to deeply moisturize. It is molecularly close to skin's own sebum.

Hyaluronic Acid (Sodium Hyaluronate)

Known for its ability to hold up to 1,000 times its weight in water, hyaluronic acid is a humectant that draws moisture to the skin.

Peptide Complex

(Acetyl Hexapeptide-8, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Acetyl Octapeptide-3). This powerful peptide complex works to smooth away the look of fine lines and wrinkles.

Cucumber Extract

(Cucumis Sativus Fruit Extract) Cucumber extract is an effective antioxidant, whose cooling capabilities soothe and depuff.

Vitamin E (Tocopherol)

A powerful antioxidant, vitamin E helps to fight the aging effects of free radicals.

Vitamin A (Retinyl Palmitate)

Vitamin A is a powerful antioxidant. It helps to combat the effects of oxidative stress, and can also improve the appearance of texture and tone.

directions for use

Apply to ring finger and press gently around orbital bone. Use in the morning and evening.
